### Quantum Biofeedback Sessions

Quantum Biofeedback assists health practitioners to find energetic imbalances. It finds the energetic imbalances of stressors such as viruses, nutritional imbalances, allergies, and food sensitivities by calculating the biological reactivity and resonance in your body.

Quantum Biofeedback measures the energetic imbalances of:

- ❖ Vitamin levels
- ❖ Amino acids
- ❖ Nutrients
- ❖ Toxins
- ❖ Hormone levels
- ❖ Muscle tone
- ❖ Disease
- ❖ Bacteria/Viruses
- ❖ Molds/Fungi
- ❖ Internal Organs

Through the use of this modern biofeedback, the practitioner is able to enhance the body's ability to heal itself.

### Nutritional Response Testing

Nutritional Response Testing is the study of how the different points on the surface of the body relate to the state of health and to the flow of energy in each and every function and organ in the body.

Using muscle testing allows us to individuate if there are any organ or gland weaknesses and what foods and nutrients will benefit you the most. From these results a personalized natural health improvement program can be specifically designed for you.

### Reiki Sessions & Attunements

Reiki is a technique that aids the body in releasing stress and tension by creating deep relaxation. It is a technique for transmitting subtle "spiritually guided life force energy" (Reiki's literal translation) to our self and others through the hands into the human energy system.

A Reiki attunement is an ancient spiritual empowerment where an energetic channel opens in the student in which the Reiki energy can flow from the Source through the student's energy body and out the student's hands.
